August 17th and 20th	10 am	Walk: The road to democracy	<p>Join a historic walk on democracy and the right to vote. We take a closer look at the places and people who shaped the Swedish struggle for democracy. One hundred years have passed since the universal and equal suffrage was introduced in Sweden in the years 1918–1921. We pay attention to the anniversary by walking in the footsteps of democratization. From the abolition of the county parliament and one of Europe's most unequal electoral systems at the end of the 19th century - to the demonstrations, the name collections and the riots that were behind the introduction of universal suffrage. What did the suffrage struggle look like and what opposition did it encounter? In the walk, we highlight some of the women, men and movements that fought for the right to vote. We also pass places in the city that are important for other crucial parts of democracy, such as freedom of expression and the right to demonstrate. The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. Some escaped from the Gestapo, others spied for the Soviet intelligence service and some sacrificed their lives.</p> <p>Guide: Johan Theodorsson, actor and narrator</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. August 19th and 21st	7 pm and 10 am	Walk: Spies, the C-agency and a Swedish tiger	<p>During this turbulent time, Sweden was one of the few countries in Europe that was outside the war. During these years, Stockholm became a tumultuous place for spies and foreign powers' intelligence services. They spied on Sweden, but maybe even more on each other. At the same time, Sweden built up its own business, the secret counter-espionage. Ordinary Swedes also chose to get involved privately: some to make it easier for Germany to invade us, others to prepare for a future Swedish resistance movement against the Germans.</p> <p>Guide: Johan Theodorsson</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. August 17th and 21st	3 pm and 6 pm	Walk: The kitchen road to history	<p>Join us at magnificent gates and hidden rooms in Östermalm at the turn of the last century and discover the secret world of the gatekeepers and kitchens.</p> <p>During our walk we stop at a number of gates and kitchen entrances with the help of which we move to Stockholm at the turn of the last century. By studying the design of the entrances, we decode architecture's built-in messages and try to understand the time-specific norms and ideals that architects and builders have built into the homes.</p> <p>The walk places (living) the city's boundaries, openings and passages in the center and focuses on the class and gender relations of the time. Who entered through the large and magnificent gates at the Bünsowska house by Strandvägen? And what really happened in the kitchen stairs at Ulrikagatan 15, passages that were built to hide both individuals and movements? And the gatekeepers who balanced on the threshold between outside and inside, what role did they play?</p> <p>We start at the Bünskowska house. After a number of stops at houses built between 1880 and 1920, we return to the present by ending the walk at the newly built Sveakvarteren next to Stockholm's stadium.</p> <p>Guide: Karin Carlsson, historian</p> <p>The hike lasts for 2 hours and costs SEK 30, maximum number of 30 people. We get to meet the tobacco workers, the teachers, the queens, the cabbage wives (the women who worked side by side with the herbalists in the city's kitchen gardens) and many more who have helped to give Stockholm its green touch. One of them is, for example, Anna Lindhagen who took the allotment gardens to Stockholm. The hike goes along Årstaviken's Södermalmssida through Erikdalslunden's colony area, further past Trädgård på Spåret and ends in Södra Årstalunden's colony area below Södersjukhuset.</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. August 18th	5 pm	Walk: Jog through the history of Kungsholmen	<p>Lace up your running shoes and join in on a round through Kungsholmen's history. For several hundred, Kungsholmen was a rural place on the outskirts of the city. It was not until the 20th century that the islet became a fully developed part of Stockholm. During our jogging trip, we take a look at Kungsholmen's industrial history and some of the previously large workshops such as Bolinder's mechanical workshop. We run further into the story of the institutions 'and hospitals' Kungsholmen, where we visit the former mental hospital Konradsberg, among other places. We let our feet land in soft greenery in some of the island's many parks and promenades such as Normälärstrand and Sankt Göransparken. It is enough that you have basic condition! August 17th and 18th	10 am and 1 pm	Walk: Instead of the children's island	<p>A walk through the Stockholm that PC Jersild's novel character Reine philosophizes around in the summer of 1974 instead of going on a trip.</p> <p>We move through the city along the trails where Reine walked. We philosophize with him about the mysteries of puberty, strange summer jobs and odd events in a city that in 1974 was characterized by faith in the future, rebuilds, gravy, flared jeans and new hamburger hooks. We also take a look at the city's transformation, architecture and see how much remains since the 1970s.</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. Was Axel von Fersen's gruesome death a murder, cunningly staged by political opponents? Did brothel mother Lovisa von Plat have high patrons, perhaps very high? And what about Bellman's anger when he was reported for blasphemy?</p> <p>The hike includes descriptions of events that may be perceived as unpleasant.</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. August 17th and 19th	2 pm and 3 pm	Walk: Ingmar Bergmans Stockholm	<p>We walk through urban environments that came to shape our most world-famous film and theater director, from Östermalm to the Old Town. On July 14, 2018, Ingmar Bergman would have turned 100 years old. He is a person who is familiar to most people and whose work still engages, arouses emotions and debate. During our walk, we want to give you new perspectives on this man with a much greater range than his reputation.</p> <p>Ingmar Bergman grew up in Stockholm as the son of the pastor of Hedvig Eleonora on Östermalm. As a fictional character in Carl Michael Bellman's contemporary songs and epistles, Ulla Winblad has become a portal figure to 18th - century beauty worship, drinking and sensuality. But Bellman's muse was also a historical figure with a motley life and a divided relationship to his place in the poet's gallery of characters. Winblad's baptismal name was Maria Christina Kießström. Between 1940 and 1964, Hasse Ekman was one of the big names in Swedish film. He was the son of the legendary Gösta Ekman the Elder and lived a life as a dandy in the capital. But Hasse Ekman was also a sensitive Stockholm painter who in his films told about the ambitious and the ingenious, and about the dreams that ended up in the shadow of the folk home. We go for a walk through Hasse Ekman's Stockholm, from Sveavägen where he lived as an adult, to Östermalmstorg where he grew up. August 18th and 19th	4 pm and 5 pm	Walk: Through the Stockholm of the great power in Christina's footsteps	<p>During the 17th century, Sweden wanted to show a magnificent capital to the outside world. Inspiration for the new cityscape was taken from Rome - that is why the castle's outer courtyard resembles the piazza in front of St. Peter's Church! Christina actively participated in the plans. This is a city walk about how Stockholm changed during the time of great power with the queen as cicerone. We meet Stockholmers such as Lasse Lucior, Malin Matsdotter and Anders Michelsson - the poet who was killed, the woman who became one of the victims of the witch hunt and the bourgeois who took the plague in 1638.</p> <p>The hike lasts for 1.5 hours and costs SEK 30, maximum number of 30 people. August 19th	Noon	Walk: From nook to metropolis	<p>The city develops in less than 100 years from a city with the simplest wooden houses and narrow alleys, to a relatively large city with county private palaces and lavish public buildings. In the 17th century, Stockholm became the official administrative city and capital of the great power Sweden with possessions around the Baltic Sea.
